

Using the diagram below, **identify** the physical conditions a plant needs and **describe** the role each one plays in keeping the plant alive.

Be a Plant Detective

Here is a Healthy Plant

Tall, upright stems
Strong, evenly spaced stems
Many large leaves

What do these plants need to be healthy again?

Each plant either needs more or less of: water, sunlight, CO₂ or nutrients.
Use the tick boxes to choose your answer.

1.

☐ ↑ More ☐ ↓ Less

☐ Water ☐ Sunlight

☐ CO₂ ☐ Nutrients

2.

☐ ↑ More ☐ ↓ Less

☐ Water ☐ Sunlight

☐ CO₂ ☐ Nutrients

3.

☐ ↑ More ☐ ↓ Less

☐ Water ☐ Sunlight

☐ CO₂ ☐ Nutrients

4.

☐ ↑ More ☐ ↓ Less

☐ Water ☐ Sunlight

☐ CO₂ ☐ Nutrients

5.

☐ ↑ More ☐ ↓ Less

☐ Water ☐ Sunlight

☐ CO₂ ☐ Nutrients

6.

☐ ↑ More ☐ ↓ Less

☐ Water ☐ Sunlight

☐ CO₂ ☐ Nutrients

7.

☐ ↑ More ☐ ↓ Less

☐ Water ☐ Sunlight

☐ CO₂ ☐ Nutrients

8.

☐ ↑ More ☐ ↓ Less

☐ Water ☐ Sunlight

☐ CO₂ ☐ Nutrients

Clues

- Too much sunlight: Small plant with curled leaves and damaged leaf edges
- Not enough water: Very droopy plant with curled, shrivelled leaves.
- Too much CO₂ : Very large, bushy plant with a lot of leaves.
- Not enough nutrients – • Small plant with curled leaves and patchy growth.
